THE BRITISH COLUMBIAN.

NO. 38. VOL. 8.] NEW WESTMINSTER, WEDNESDAY, JUNE 24, 1868. [PRICE 6d. or 12 cts.

HUDSON'S BAY COMPANY AND THE NORTH-WEST.

(*From the Toronto "Globe".*)

Like all monopolies, the Hudson's Bay Company seems determined to fight it out "to the bitter end." It will not die gracefully or come to any compromise. It cannot surrender one particle of what it is pleased to call its rights, and the likelihoods are all in favor of a keen struggle to keep the great North-west a wilderness for a considerable time to come. It has to be acknowledged that it occupies a favorable position for maintaining such a struggle. Not that there is anything reasonable in its claims, or anything very formidable in its title, but its backing is influential, and that backing has the strongest motive for doing its best for it—for its own pecuniary interest is involved. The Hudson's Bay Company has always been a favorite with a good number of the English aristocracy, especially with the Whigs. Its dividends have been specially acceptable, and a goodly number of those who received them, if not in power themselves, have had great influence with those who were. This is not so much the case as it was; but it is still more so than is consistent with the interests of the Red River community and the Dominion of Canada. For jobs and monopolies the Whigs have always been celebrated, and what fragment of them still continues in existence by no means belies its antecedents. But for the back-stairs influence of Whig magnates, like the late Mr. Ellice, this great monopoly would not have been so tenacious of life; and but for some such underhand dealing and family pecuniary influences involved, the difficulties of arranging the manner in which the country is to become part of our Confederation would not have been so great as they are apparently coming to be. Why have there been such delays about the answer from the Home authorities to the address of the Dominion Parliament in reference to this matter? We were told by the Hon. Mr. McDougal that he had so arranged things that all that was necessary was such an address as was sent last year by our Parliament—the consent of the Queen in Council—and the thing was done. The Company could then, we were assured, have its remedy against the Dominion like any other corporation and nothing more. It comes out now, however, that this was merely one of Mr. McDougal's pieces of big talk, vulgarly called *bounce*, with little foundation in fact—simply a creature of the honorable gentleman's brain. According to a positive statement of the *Canadian News*, before he can have the annexation of the North-west, must the claims of the Hudson's Bay be settled. Lord Kimberley, formerly Lord Wodehouse has been appointed Chairman of the Company in place of Sir Edmund Head, and however liberal he and others may be in mere general talk, when it is a question of personal, pecuniary interest, it comes to be quite a different thing. Every obstacle which can be thrown in the way of the satisfactory settlement of the country will be made use of, and the interests of the whole of British North America jeopardized for the sake of a company of traders who, if they have any claims against the country, can have their remedy against the Dominion when it becomes part of it as any other corporation can.

We regret that this arrangement boasted of by Mr. McDougal has turned out a myth. It was very natural that it should do so, but it is not the less to be regretted on that account; for, as we stated at the time, when it was first announced, we believe the plan is the best that could be thought of—perfectly fair and just to all parties. British Courts of law are proverbially impartial. What better remedy could the Hudson Bay Company have, if it thinks itself wronged, than from their decision? And why should it have more than any other company of traders? We can see no reason why, even though there *should* be a good number of Honourables and Right Honourables members of the firm. It surely can scarcely be that the interests of all this wide extent of country are to be sacrificed once more to official incompetency and the undue pressure of greedy and unscrupulous traders who have the advantage over their brethren in business simply in that they claim to be aristocratic, and have the ear of those who are or expect soon to be in power.

Both the great political parties in Britain have endorsed Confederation, and it will be curious and humiliating if either or both of them stop short in the work through the mesmerizing influence of interested relations, profitable stock and convenient dividends. We sincerely hope that the Colonial Office will not allow itself to be used and stultified in any such manner, and if it do that the British Parliament will apply a speedy and effective remedy.

THE NEW MEYER GUN.

The Montreal *News* says:—"Mr Jacob Meyer, at present a pattern maker in the Grand Trunk Works, gave a public exhibition yesterday, at the Ranges, Point St. Charles, of a piece of light ordnance, of which he is the inventor. General Sir Charles Wyndham, K.C.B., Col. Sir Henry Havelock, V.C., Lieut. Col. Galloway, Lieut. Col. Earle, Military Secretary, Capt. Grant; a number of ladies, and a large gathering of civilians were present, to witness the latest invention for the destruction of human life. 'The Light Self-acting Field Battery' was placed at a range of 400 yards, and in appearance gives little idea of the wonderful powers which it undoubtedly possesses. The gun is mounted on a light carriage and with it weighs 210 pounds. Apparatus is provided for elevating the range, and for changing the line of fire, laterally, to any radius within 90°. The barrel is of the Snider bore, and like it rifled. An outer casing of brass allows it to be surrounded by water to the depth of a quarter of an inch, so rendering the heating that would result from rapid firing impossible. The gun is worked by machinery enclosed in a drum that is solidly welded to the breech. A trough upon the right side supplies the ammunition which, by the turning of a crank, is forced into the chambers with which a revolving disc is pierced. With each turn of the crank a bullet is expelled, a shell dropped, and a cartridge forced into one of the chambers. To give technical details of the invention would at once endanger the privilege that is intended to be sought in a patent, and be uninteresting to the general reader. Results suffice us, while a close examination of the component parts of the machinery belongs to the distinguished officers who were officially present. Mr. Meyer was first desired to prove that his gun possessed the rapidity of fire claimed for it, and he obeyed with such effect as to discharge at one time thirty-eight rounds in thirty seconds, and, at another, fifty-five rounds in thirty-three seconds. The bullets seemed to strike the target with an unerring certainty, and in no instance failed to be expelled by the ingenious machinery. Mr Meyer next showed that his gun was equally effective in changing the direction of the fire. With one hand managing the cog-wheel that gave a lateral motion to the gun, and with the other turning the one small crank, that seemed to possess such mysterious powers—he swept a range of a quarter of a circle and poured out such a storm of missiles as would have made the advance of an enemy impossible. General Wyndham has, for some time past, been interested in the labors of the inventor, and has, if we do not mistake, frequently visited Mr. Meyer's house to offer him practical suggestions and support. On this occasion, the General expressed his highest satisfaction with the result of the experiments, and will doubtless forward such a report of the weapon to the Horse Guards as will gain for it the attention it manifestly deserves."

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast,

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAK JOINTS, BRUISES, SPRAINS, SORE THROAT, BURNS, EAR ACHE, FRESH CUTS OR WOUNDS, SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

The British Columbian.

WEDNESDAY, JUNE 24, 1868.

IS IT "BAD NEWS"?

Under the caption of "Bad News", our Victoria contemporary, in his issue of Thursday, announces "on the best authority," Mr. Birch's candidature as successor to Mr. Seymour. This announcement is followed up by a leading article in the next issue of the paper, denouncing the presumption of Mr. Birch, on the one hand, and pronouncing his administration of the government of this Colony, during the absence of Mr. Seymour in England, as a "miserable failure", on the other. To give an idea of the virulent character of the article let the following extract suffice:—"We find the detestation (we must be pardoned using the term, but none other will do) in which Mr. Birch is held by the community over which for a brief period he exercised the high office of Acting Governor, is not confined to one particular class of society or set of politicians. It appears universal as well in its intensity as expression." Now, we deny that such language as the above can find any justification in fact. Nay, more, we affirm that it is as false as it is gratuitous. Had these remarks been so restricted in their application as to confine them to the particular community in which the sheet through which they were promulgated is printed, they might have been true, with some modification, however. But, we would like to know of whom have not equally bitter things been said by the Victoria Press? During the fifteen months that Mr. Birch administered the Government of this Colony little exception was taken to any of his acts by the Press of the Mainland; and certainly he fared better at the hands of the Island Press than did either Governor Seymour, Governor Kennedy, or Sir James Douglas himself. Of him the offensive and gratuitous expressions "costermonger," "coward," "imbecile old woman" were never written. In short the administration of Mr. Birch was, we will not say more popular, but less unpopular than that of either of the above-mentioned Governors. We will say more; and we say it without fear of successful contradiction: The administration of Mr. Birch was comparatively popular amongst "the community over which for a brief period he exercised the high office of Acting Governor." That community was on the Mainland; for it must be recollected that the unfortunate union had not taken place at that period. We have reason to know that throughout the Mainland Mr. Birch stood well. Nor was he personally a stranger, seeing that he travelled through the entire inhabited part of the Colony, visiting both Cariboo and Kootenay. Everywhere he was well received, and everywhere he made a favorable impression; and if he was less fortunate in Victoria (in another colony) than on the Mainland, he only shared the common fate of others. We repeat what was said upon the occasion of a splendid banquet being given to Mr. Birch, on the eve of his departure for England:—"Probably British Colonial history affords few instances, if any, of one so young filling so difficult and responsible a position with so much credit to himself and satisfaction to the Colonists." We sincerely hope Mr. Birch *will not* be Mr. Seymour's successor, for the very cogent reason that we ardently trust Confederation will obviate the necessity of any more nominees of the Colonial Office being foisted upon this Colony. But should we be so unfortunate as to be condemned to serve out another term of what one might perhaps be excused for calling a condition of British serfdom, probably no wiser or more popular appointment could be made than that of Mr. Birch. Several years' experience in the Colony would be of the greatest service to him; while the marked success of his administration in the past would at once give him a position in the confidence and esteem of the Colonists, and would not fail to insure him a right hearty welcome to our shores. Nor do we believe that Mr. Birch would be otherwise than well received even in Victoria, the illnatured snarl of our contemporary, couched, as it is, in the most execrable English, to the contrary notwithstanding. That Mr. Birch, or any other gentleman who might receive the appointment, could ever hope to govern this colony with satisfaction either to the people or to himself, under the present system, we deny. Essentially bad, it has now fallen into such universal and utter contempt that it would be impossible for any man to raise it into popular favor. Hence it is that we sincerely hope the foolish experiment will be pushed no farther; but that we shall be allowed to connect ourselves at once with a system which will confer full self-government. It is, perhaps, due to our contemporary, before dismissing this subject, to make some allowance for the fact that he is a comparative stranger to our country and our politics, and to assume that it is all a mistake; or, peradventure, that he has been the dupe of imposture. This assumption would appear to be justified by the evident error into which he has fallen in imagining either that Victoria constituted part of the Colony the affairs of which Mr. Birch so successfully administered, or that Victoria is British Columbia! It is just possible, however, that the scurrilous attack upon Mr. Birch is susceptible of quite a different explanation. It is no secret that that gentleman was so unfortunate as to incur the personal enmity of the editor of the *Colonist*, while acting in another capacity; and the public have already had an illustration of the alacrity with which he can employ the paper temporarily under his control, for the purpose of avenging what a morbid imagination may have magnified into a personal wrong. But, be this as it may, we do not believe that our contemporary has truly represented the popular sentiment of the people of Victoria in this matter, and we *know* that he has grossly misrepresented public opinion throughout the Colony generally.

ADDRESS

TO THE

NERVOUS AND DEBILITATED,

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on the subject?

Do you feel dull, listless, moping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation wherein perfect health, make the man. Do you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in busine they don't become sad and discouraged; they are always polite and pleasant in the compan of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S

FLUID EXTRACT BUCHU IS THE

GREAT DIURETIC,

AND IS

A CERTAIN CURE FOR

Diseases of the Bladder,
Kidneys,
Gravel,
Dropsy,
Organic Weakness,
Female Complaints,
General Debility,

AND ALL DISEASES OF THE

URINARY ORGANS,

whether existing in male or female,

From whatever Cause originating, and no matter of how long standing.

☞ If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & Co.,
Practical and Analytical Chemists,
Lowell, Mass.

Sold by all druggists every where.

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and Dr. JONES, New Westminster, and by every dealer in the Colony.

WEDNESDAY, JUNE 24, 1868.

PROCRASTINATION.

Procrastination is the thief of time. It would appear to be the besetting sin of our Government. Last year was allowed to pass without anything being done in the matter of reducing and surveying the so-called Indian Reserves on the Lower Fraser, although a Resolution of the Legislature required that the work should be done. It will be recollected that when the subject was up during last Session the Chief Commissioner gave the assurance that the matter would receive his attention in the Spring. Spring has ripened into Summer; the ides of July will soon be upon us, and yet the first step in redeeming that promise has not been taken! Indians and whites, equally interested and equally anxious, are fast loosing faith in the promises of the Government, and the pernicious consequences of the present condition of these Reserves has now been permitted to project into another year. It will be recollected, too, that during last Session, a Resolution was unanimously adopted by the House, requiring that the Pitt River Road should be surveyed as far as St. Mary's Mission, and the gradual construction of the same commenced. In his Prorogation Speech the Governor promised that the survey should be made this season, but expressed doubt as to the immediate construction. No movement has yet been made, however, towards redeeming even that promise, and people who are anxiously waiting for that line of road to be surveyed in order that they may know how to locate farms, begin to fear that it will fare no better than the Indian Reserves. These cases are not all; they are only given as examples. The roads in the interior have equally been left to take care of themselves. Taking the Hope-Kootenay road, for instance. See how that has been neglected, after the enormous sums expended in its original construction. That portion of it lying between Hope and Semilkameen, see how it is treated. Those using it have been for the most part compelled to cut their own way through fallen timber, and yet the cent a pound toll has been rigorously exacted. It is true the contract for clearing it has just been given out; but that comes rather late. Weeks, perhaps months are spent in tardy negotiations and official red-tapeisms, and the work is done when the season's trade is nearly over! Now, why is it that works so very easy of performance, and so urgent in their nature, are so neglected? Is the Chief Commissioner really so much engaged with the affairs of the Island that he has no time to attend to the interests and wants of the Mainland? Hitherto the Assistant Commissioner has been able to attend to the Island. He is still there, and continues to draw his salary. What, then, is the Chief doing? Are these to be the fruits of having the Seat of Government at Victoria? Is this what is meant by consulting "the public convenience? Is that expression to be literally rendered "the convenience of public servants"? And are they consulting their convenience by removing head-quarters away out to sea, as far as possible from the main portion—the *productive* portion of the colony, so as, if possible, to be beyond the reach of those whose interests they are so well paid for watching over? In all this they may be consulting their convenience *now*; but we beg to warn them that they have not a life lease of office, and that a day of reckoning will assuredly come. It may be of vital importance that the Chief Commissioner should be present at the impending cricket match; but if he cannot be spared on that account surely some one of his numerous subordinates might be told off for the particular service to which we refer. Possibly that august functionary desires to emulate the celebrated Roman fiddler! Has the Governor lost all control over his officers? The people will hold *him* responsible!

FROM CARIBOO.

The following is condensed from the *Cariboo Sentinel* of the 11th and 15th inst.:—The issue of the latter date says of

WILLIAMS CREEK.

Owing to the interruption caused by the high water and the danger which threatened the bed-rock drain, the product of gold the past week has been less than for any previous week during the month. The principal claims, however, have all got to work again, and if no new interruption takes place a steady yield is anticipated.

The Sheepskin cleaned up 93oz., and the Baldhead, Welsh and Cariboo about expenses. The Raby washed up 40oz. Forest Rose 118oz. The Ballarat co. are pushing in their drain and will probably take two months to complete it. The hydraulic companies are all in full blast, but none of them will probably wash up before the first of July.

STOUT GULCH.

The Floyd co. cleaned up for the week 42oz. The Alturas co., in two days, washed up 80z. The Taftvale washed up for the week 130ozs. The Jenkins co. over expenses. The Mucho Oro co. 80oz.

LOWHEE CREEK.

The Calaveras co. took out for the week 150 oz.; First Chance co., 50oz.; Several Chinamen are making from $10 to $12 per day.

ANTLER CREEK.

No new developments have been made in the vicinity of the late strike.

MOSQUITO GULCH.

The following are the wash-ups for the week:—Minnehaha, 300oz.; Willow, 160oz; Hocking, 162oz.; Jeffries, 40; Holman, 20; Discovery, wages; Point, good pay.

RED GULCH.

Discovery co. washed up for the week, 40oz.; Tom and Jerry, paying well; Blacksmith, wages; United, wages; Tipton Slasher, wages.

The yield of the two gulches this week is about 1000oz.

KEITHLEY CREEK.

Brown & Co. are taking out good pay.

QUESNEL.

About fifty Chinamen are mining on the small creeks above the Forks, and are making from $10 to an ounce per day.

The telegraph line between Quesnelmouth and Williams Creek is being pushed forward with great spirit by Mr. Buie, and it is hoped that by the 10th ult., Barkerville will be embraced in the great telegraphic system of the world! Flour had dropped down to $20 for extra, and $18 for superfine, and a still farther decline was anticipated. Very large stocks of goods were accumulating on the Creek.

The *Sentinel* of the 11th says that "Accounts from all parts of the gold diggings are of the most favorable character. For the past week we have not heard of a single shaft bottomed with disappointment, or a single claim abandoned; but, on the contrary, although we do not hear of many strikes, every report that comes in conveys something hopeful and cheering. Shafts are going down steadily and surely through slum and mud to the spot where previous prospecting has indicated where lies the hidden ore. The tunnels are fast approaching the back channels where the "lost leads" are playing hide and seek. The bed-rock drain has had its trial and may now be considered safe for the season. The hydraulic pipes are again pouring their torrents upon the hill sides, which are gradually uncovering their deep hidden stoney base; and if we do not prove a false prophet, in one short month we will be able to record the largest yield of gold that has ever been reported from Cariboo."

Professor Martin, the Wizard of the North, was concluding a very successful engagement on Williams creek, and was about to start for Centreville.

FROM BRIGHTON.—Lewis' Stage came in from Brighton last evening with ten passengers. There is no news of importance from Burrard Inlet.

FROM YALE,

The str. Lillooet, Capt. Fleming, arrived from Yale yesterday, bringing a number of passengers, Barnard's Cariboo Express and Bank treasure to the value of $65,000, in charge of Mr. Ormandy. The Hon. Mr. DeCosmos was amongst the passengers. We condense the following from the *Examiner* of Monday:—The heat was 94 in the shade on Thursday. The forest back of Hope was fired by lightning last week. Only 50,000 lbs. of freight left during the week. Mr. Strouss had just completed a fire-proof store-house. Farm hands are scarce in the interior, $75 a month being offered. The people of Lillooet complain about the condition of the trail between that town and Lytton, and wish to know what their member is about! Dominion day (1st July) is to be kept in grand style. A salute of 21 guns is to be fired in the morning, and there is to be a banquet in the evening at the Colonial Hotel. Preparations are also being made for celebrating the 4th. The ascension of a monster balloon is in the programme.

AGRICULTURAL.—The general committee of the New Westminster District Agricultural Society will meet at Mr. G. C. Clarkson's Book store, on Tuesday evening next, the 30th inst., at 8 o'clock. This meeting will probably be the most important one for the year, inasmuch as it will devolve upon it to prepare a prize list, and adopt rules, etc., for the regulation of the next exhibition. It is most desirable, therefore, that every member of the committee should be present on Tuesday evening. Especially is it desirable that the Chairman and Secretary of each auxiliary committee, who are constituted members of the Central Committee, should be present to represent the wishes and views of the farmers in their respective neighborhoods. If the movement is to be a success it will be necessary that every member of the Committee do his duty. The cause is a most important one. Let it receive becoming attention.

FROM VICTORIA.—The str. Enterprise arrived from Victoria last evening with freight and passengers. There is little telegraphic news, the cable having been broken for several days. In the House of Commons, on the 16th, an interesting debate took place on the Nova Scotia petition for secession. Bright moved for a Commission of enquiry which was carried by a majority of 87. The same evening the Irish Church appointments Suspensory Bill passed a third reading. Despatches from Rome announce the intention of the Pope to issue a general amnesty to political offenders on the anniversary of his accession to the Holy See.

There is not much local news in Victoria. The Indian disturbances up the coast were exciting interest and Executive Council meetings were held in reference thereto.

SIGNS OF PROGRESS IN THE INTERIOR.—It is undoubtedly a good sign to find, as people do who are travelling up or down the country, in nearly every house from Williams Creek to this place, a good supply of English, American and Colonial newspapers. Useful reading tends to enlarge the mind, liberalize the ideas and make the reader more happy and contented.

We are glad to know that these happy results are in a fair way of being realized owing to the business energy and push of one of our mainland firms, who have, during the past year, increased the circulation of useful periodical literature throughout the mainland to double what it has been heretofore. We refer to the well known house of G. C. Clarkson & Co.

WHAT kind of Guns, Captain? Pop Guns? No, no, I mean "Gunn's Family Physician, or Home Book of Health." It should be in every family. It has been the means of saving many lives. Those, *especially*, who reside at a considerable distance from a Physician should not be without this valuable work. G. C. Clarkson & Co. have plenty of them and sell them at $3 50 each. *

THE ship Anna Schmidt, which was destroyed by the Alabama off the coast of South America, had on board a quantity of Ayer's Cherry Pectoral for California. Dr. Ayer & Co. now appeal for redress direct to the British Government, as the responsible party in this wicked business, and base their claim for payment and protection on the ground of humanity, as their commodities are wholly for the sick. Their point is well taken, and will doubtless be pressed with the pluck and persistency which characterize the operations of these celebrated chemists.—Baltimore *Clipper*.

REMOVAL.—The telegraph office in this city has been removed to the building occupied by Barnard's Express, corner of Front and Mary sts. These offices have been amalgamated, and Mr. Richardson will discharge the double functions of telegraph operator and express agent.

PERSONAL.—We regret to hear that indisposition prevented the Hon. Mr. DeCosmos approaching nearer to Cariboo than Cache Creek. He, however, made a tour of the Kamloops and Okanagan country, in company with the Hon. Mr. Barnard, and expresses himself much pleased with what he saw.

THE SURPLUS.—We are requested to state that the surplus fonds remaining after paying all the expenses connected with celebrating the Queen's Birthday, some $30, have been handed over to the Royal Columbian Hospital.

MASONIC.—R. Burnaby, Esq., Grand Master of British Columbia and Vancouver Island, visited this city last week, in company with Mr. Plummer, Grand Secretary, and duly installed H. Holbrook, Esq. as Deputy District Grand Master for the united colony.

THE MONETA.

To the Editor of the British Columbian.

SIR,—As a well wisher of this Colony I look with jealousy on any attempt to take from it the slightest advantage to which it can rightly lay claim, and the people if true to themselves, should use every possible means not only to encourage persons from abroad to invest their money here, but, above all, to take care that nothing be allowed to go elsewhere for what can be obtained here.

There is at present a case at this Inlet which appears to me to be one of much interest to all who desire the welfare of the Colony. The British ship "Moneta" has been very much damaged by fire, a survey has been held, and it is estimated the cost of putting the vessel in the same condition she was in prior to the accident, will be more than she was worth before it happened; but Lloyd's Agent in Victoria, who has not taken the trouble of even seeing the vessel himself, refuses to accept the abandonment of her by the Captain, or of having her repaired here, but insists upon her being taken to San Francisco to be repaired, at a great risk to life and property. Now this should not be, and I fear Lloyd's Agent has allowed himself to be persuaded to adopt the course he is taking, by those whose interest it is to get the vessel to San Francisco, instead of studying the interests of the underwriters at Lloyd's; for it is a fact patent to everybody that the cost of repairing the vessel in San Francisco will be much greater than it would be in this Colony, and perhaps some of the wood used will be sent from here. It is not doing this Colony justice when a British ship is to be sent from a British Colony, which possesses all the requirements, to a foreign rival port to furnish, at a higher price, what it can supply. I take it as an act of gross injustice to this Colony, and those who have been instrumental in doing it should be looked upon as enemies to our interests, and measures taken to bring the case before Lloyd's in London to investigate.

A BRITISH COLUMBIAN.

Burrard Inlet, June 22d, 1868.

ANOTHER OPPORTUNITY.—Doctor F. Grady, whose professional reputation is already sufficiently established, has just returned from San Francisco, and may be consulted at the Colonial Hotel. He comes with all the latest improvements in Dentistry. *

COMMERCIAL PLUCK.—The removal of the Seat of Government appears in no way to have damped the enterprise or weakened the confidence of J. S. Clute. At least one might fairly come to this conclusion on seeing the large and varied stock of new goods which he received by last steamer, and which he is now opening up for sale, including the very latest styles, and the most tempting patterns yet brought to this market. *

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c,

CASCARILLA BARK.—For Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snakeroot, &c.

S.T-1860-X.

Another wonderful ingredient of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all side, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and imposter. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York,
Sole Proprietors.

Redington & Co., San Francisco. Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic. J. W. HEWITT,
Foreman for Amer'n, Wells. Fargo's & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." ED. SEELY,
Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROME, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel.

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that those often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart, Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's marvellous Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sandflies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Smith, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a provincial member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obstructions from the blood, and cleansing all the tissues of the body. They have saved thousands from a premature grave after years of suffering from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., &c., attested by myriads of witnesses. Excessive weakness and debility, the warnings of diseased organic energy and fatal decay, are restored and reanimated with vigor by the healthful action in every organ throughout the system, by the restorative and exhilarating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis of life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and choices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be assiduously rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the livers; if bilious attacks be allowed to continue, serious casualties must arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy, Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Gout,	Stone and Gravel,
Blotches on the Skin,	Head-ache,	Secondary Symptoms,
Bowel Complaints,	Indigestion,	Tic Douloureux,
Colics,	Inflammation,	Tumours,
Constipation of the Bowels,	Jaundice,	Ulcers,
Consumption,	Liver Complaints,	Venereal Affections,
Debility,	Lumbago,	Worms of all kinds,
Dropsy,	Piles,	Weakness from whatever cause, &c., &c.
Dysentery,	Rheumatism,	
Erysipelas,	Retention of Urine,
